but I am not sure
for I am not sure
the not to be sure
all labelled as such!

Hamula

Camptopogon

Rhyssalus

Eumecurus

Phaenocarpa

Dacnusa

D. cf. bellula, ♂, ant 23; appears lateral + yet open of hind tibiae very "early",
so it runs to umbellina Nixon in his key. A.W.S. 15.5.55.

12.45.30 pm
walked through the
marshy ground
and found a
large number of
small stones
about 1/2 inch
J. S. Brunker and I went to the
marsh and walked through
the water and found
many small stones
the same as in the
marsh and I found
many small stones
and I got out my net and
they changed

all the stones
